MEDEA PROJECT**

(Project Medea. www.proyectomedea.es)

No. of posts offered: One (1)

Work location: Pharmacogenetics and Personalised Medicine Unit. CICAB. University Hospital of Badajoz. Health Area of Badajoz. Extremadura Health Service (Badajoz, Spain).

Type of contract: Temporary full-time contract (immediate incorporation).

1 full-time position and duration until 31 August 2022.

Tasks to be developed:

- Development of Clinical Research Protocols, Clinical Coordination of the Project, Registration of studies in the AEMPS, Pharmacovigilance. Evaluation of results, specifically, evaluation of genetic and other factors in the variability of response to medicines, under the supervision of the Scientific Director.

Gross annual salary: 38,223.14 euros/year

MINIMUM REQUIREMENTS:

- Medical Specialist in Clinical Pharmacology or University graduate in health sciences with postgraduate and/or clinical experience in clinical pharmacogenetic studies.

MERITS TO BE ASSESSED:

A. Professional experience:

- 1) Work experience of more than 1 year in clinical pharmacology and/or pharmacogenetics
- 2) Research experience of more than 1 year in the area of clinical pharmacology and/or pharmacogenetics, or developed during the completion of a Master's or PhD in the area.

B. Competences required:

- 3) Required skills.
 - Development of Clinical Research Projects.
 - Knowledge and experience in the process of registering studies with the AEMPS.
 - Pharmacovigilance.
 - Evaluation of clinical pharmacogenetic studies
 - Coordination of clinical research projects

Skills and availability required:

Ability to multi-task in time-sensitive situations

Indispensable availability to travel around different care centres in the Autonomous Community of Extremadura.

Capacity for teamwork

OBJECTIVE ASSESSMENT OF MERIT:

Applications that do not meet the minimum requirements of a degree and 1 year experience in A.1 or A.2 will not be considered, except in the case of lack of candidates to cover the offer.

The following sections related to sections A and B will be assessed up to a maximum of 7 points.

The minimum requirements are not scored.

A. Professional experience (maximum 3 points)

1. For each year or fraction of creditable experience in specific functions in clinical pharmacology and/or pharmacogenetics, from 2 years onwards, 0.5 points/year or fraction thereof will correspond, demonstrable by means of a certificate of functions (up to 2 points).

2. For each year or fraction of research experience that can be accredited by means of a certificate of participation in R&D projects or in a master's or doctorate programme, 0.25 points/year or fraction will be awarded. The provision of a master's degree in research or a doctorate will add an additional 0.5/1 points respectively (up to 1 point).

In the event that there is a lack of candidates, the score to be awarded for each year of experience will be 1 and 2 from the start of the experience, and the corresponding fraction will be assessed.

Note: The points can be accumulated between both experiences.

B. Acquired competences: (maximum 4 points)

3. For each required competence, demonstrable by certificates of functions performed or any other evidence, 0.7 points will be awarded up to a maximum of 4 points.

For every 3 competencies demonstrated, an additional 0.5 points will be awarded.

PERSONAL INTERVIEW ASSESSMENT:

4. The candidates with the best score among those who achieve a score equal to or greater than 5 points (sum of criteria 1-3) will go on to a second phase of the personal interview.

If the number of candidates with 5 or more points is less than 5, the number will be completed up to 5, in order of highest to lowest points among those who have not reached 5 points in sections A and B.

Up to a maximum of 3 points will be awarded per value judgement, in which the following aspects of the candidate will be considered

- Oral presentation of their professional experience related to the tasks of the project and degree of knowledge of the different skills required in the profile.
- Knowledge of the MedeA Project.
- Willingness to work in a team.

Will be selected who, after completing the personal interview, will add the maximum score from all the sections that can be assessed:

A. Professional experience (maximum 3 points)

B. Digital competences: (maximum 4 points)

Personal interview rating: (maximum 3 points)

Maximum score 10 points.

- In the event of a tie, the place will be awarded to the candidate who obtains the highest score in the personal interview.
- If the tie continues, the place will be awarded to the candidate who obtains the highest score in the professional experience section.

- If the tie persists, the place will be awarded to the candidate who obtains the highest score in the digital competencies section.

SENDING APPLICATIONS:

Interested parties who meet the requirements should send their CV and merits, exclusively by e-mail, to proyectomedea@salud-juntaex.es.

Final date for receipt of applications: **15 October 2020**.

Badajoz (Spain), 23rd September 2020.

Signed:

Dr. Adrian Llerena

Professor of the Faculty of Medicine, UEX Head of the Clinical Pharmacology Section
University Hospital of Badajoz. Director INUBE
